OUR APPROACH

BLACKTHORN VISION

Initial Discussion

Our engagement team gather's all requirements and all related information about the project and make sure about the budgetary and timing constraints you have.

Analysis and Consultancy

We analyze project requirements and get back to you with the probable solutions. If requirements are not complete we propose to start Discovery Phase

Proposal

- Service model recommendation
- The scope and product backlog
- Team composition
- Pricing model recommendation

Contract Signup

Our project managers make sure that you are kept informed at every level and keep communicating with you for any changes made.

Execution and Delivery

Once the project deliverables are defined, we proceed with the paperworks. You can choose from our flexible engagement models and pricing models.

Support

You should consider support phase if you are expecting quickly growing users auditory, regular functional enhancements, usability improvements and timely respond to user issues
